ABOUT ME

I am a Computer Science student passionate about UI/UX design and creating clean, user-friendly digital experiences. I enjoy turning ideas into simple and functional interfaces, and I have practiced this through small projects such as designing a personal portfolio website and mobile mock ups.

I actively share my design on [Behance](#) and [LinkedIn](#) to stay updated on latest design trends, My goal is to contribute my creativity and problem-solving skills while learning and growing through real-world projects as a UI/UX intern.

Design is not just what it looks like, but how it works.

SKILLS & TOOLS

SKILLS

- Basic Wireframing
- Simple Prototyping
- Layout & Typography
- Creative Thinking
- Team Collaboration

TOOLS

- Figma (basic practice)
- Canva (designs & layouts)
- Adobe XD (exploring basics)
- VS Code (basic web UI practice)

*Currently building my foundation
in UI/UX and excited to keep
learning new tools and design
methods*

PROJECTS

Project 1 : Power BI Dashboard

Goal : To create a dashboard for data analysis with clear and interactive visuals.

Process : Focused on layout, color balance and simple charts to improve usability.

Outcome : A user-friendly dashboard that makes complex data easy to understand

Project 2 : Creative Wallpapers

Goal : To design visually appealing digital wallpapers with modern aesthetics

Process : Experimented with colors, & minimal design elements using Canva

Outcome : A collection of clean & trendy wallpapers suitable for different themes

THANK YOU

Thank you for reviewing my portfolio. I am excited about the opportunity to contribute my creativity and grow as a UI/UX intern.
